

ACADEMIC MAJORS

COLLEGE IS A TIME OF DISCOVERY AND SELF-DISCOVERY

DECIDING ON YOUR MAJOR INVOLVES BOTH.

Look inward to gauge your interests, academic strengths and personal goals. And look to UCLA to provide the rare opportunity to explore all the new subject areas and learning experiences only a research university in an innovative global city can offer.

This booklet will introduce you to broad subject areas at UCLA and some majors, both new and familiar, that fall within them. Keep in mind that any major can lead to many different careers, so don't limit yourself on the major or minor you pursue. Here, it's not just about what you study but how you study it.

Stunt Ranch Santa Monica
Mountains Reserve

As you consider different majors, keep in mind that UCLA offers a multitude of ways for you to pursue more than one interest and expand your thinking while working toward your degree.

EXPLORING NEW FIELDS

During New Student Orientation over the summer, your advisor or counselor can help you choose courses that will introduce you to new academic fields and multidisciplinary majors, like disability studies. With 10-week fall, winter and spring quarters, you have a lot of flexibility to sample intriguing new subject areas.

SMALL SEMINARS AND INNOVATIVE COURSES

Our Fiat Lux seminars give groups of 10–20 students an in-depth look at compelling topics, like global migration and the psychology of food and eating. Clusters are small, yearlong courses taught by teams of faculty from different disciplines. While examining one current topic, Clusters expose freshmen to different schools of thought and approaches.

MINORS AND DOUBLE MAJORS

If you have a wide range of interests, a minor or a double major may be the way to go. Minors can complement your major while adding to your skills. For instance, one student majored in African American studies and minored in accounting; he was hired as a financial analyst before graduation.

Double majors let you earn a degree in two fields. They require a larger course load but can be worthwhile. One graduate, for example, double-majored in business economics and Chinese to prepare for global business.

UNDERGRADUATE RESEARCH

UCLA is a research powerhouse, averaging \$1 billion in research funding annually. So, it's no surprise that more than half of UCLA students graduate with research experience. And not all research happens in labs: Social science and humanities students do original research as well, from analyzing the costs and benefits of DNA databases to identifying the influences of Victorian Gothic literature on online games.

INTERNSHIPS

From Silicon Beach to Hollywood, Los Angeles offers an array of internship opportunities for students pursuing all different majors. You can gain meaningful real-world experience and make valuable connections while translating your passions into career skills.

VOLUNTEERING, ENTREPRENEURSHIP AND MORE

By volunteering for groups like Mobile Clinic, L.A. Hacks and Bruin Consulting, you can explore your civic-minded interests and build a robust résumé. Startup UCLA offers programs including Bruin Impact and Summer Accelerator that hone your entrepreneurial skills. Student organizations offer another avenue for you to shape your UCLA experience.

STUDY ABROAD

Many UCLA students earn course credit outside the U.S. UCLA offers 100+ programs in more than 40 countries. Financial aid can help make study abroad affordable.

Studying abroad in Rome

Hammer Museum Courtyard

INTERESTED IN THE WAY THINGS WORK

If you have a talent for numbers or you like to take things apart — with your hands or in your imagination — you may find your major in the **PHYSICAL SCIENCES** or **ENGINEERING**.

The Student Creativity Center in Engineering

SHARPEN YOUR SKILLS

The physical sciences are known for rigorous measurement and testing of hypotheses and theories. Students learn to handle big data as easily as lab equipment. Engineering is even more hands on, with an emphasis on practical problem-solving.

SHAPE YOUR FUTURE

Physical sciences and engineering graduates are in demand. So many employers recruit our students that UCLA's Engineering and Technical Fair, a two-day event, is repeated twice a year. Some graduates end up in surprising places. The team that created the algorithm for the snow in Disney's *Frozen* and the water in *Moana* included both an alumnus and a professor of applied mathematics.

Bioengineering Assoc. Prof. Andrea Kasko focuses on the design of new materials for biomedical use.

IMPACT YOUR WORLD

CARBON REMOVAL. Researchers at the Institute for Carbon Management are using novel technology developed at UCLA called SeaChange to leverage the ocean's capacity for carbon removal. The electromechanical process creates green energy while removing billions of metric tons of carbon dioxide from the atmosphere.

BIOELECTRONICS. Bioengineering researchers at UCLA recently developed an ultra-thin, rechargeable fiber battery for potential use in wearable health-monitoring technologies. The zinc ion device is lightweight and environmentally friendly.

INFINITY AND BEYOND. Faculty and alumni are involved with many NASA missions, from Dawn to Mars 2020 to Europa Clipper. Astronaut Megan McArthur '93 was the robotics expert on the final space shuttle mission to the Hubble Telescope; today, she is the pilot of the NASA SpaceX Crew-2 mission to the ISS, launched on April 23, 2021. Undergraduate students designed, built and launched the ELFIN satellite to conduct research into space weather.

Astronomer, Nobel Prize winner and TED star Prof. Andrea Ghez

Distinguished Prof. of Chemistry Neil Garg is known for creative teaching.

Robotics and Cyberphysical Systems researchers use machines to grasp the future.

The Concrete Lab is a research and instructional space for Civil and Environmental Engineering.

A sampling of majors
(see pages 14–15 for a complete list):

Applied Mathematics
Biochemistry
Computer Science
Electrical Engineering
Mechanical Engineering

Majors of growing interest:

Climate Science
Engineering Geology
Mathematics/Economics
Physics
Statistics and Data Science

Some intriguing minors in this area
(see page 15 for a complete list):

Atmospheric and Oceanic Sciences
Biomedical Research
Climate Science
Data Science Engineering

CURIOUS ABOUT THE STUDY OF LIFE AND HEALING

If you like to explore the secrets of living organisms or you feel passionate about improving the quality of life for others, you may find your calling in the **LIFE SCIENCES** or **NURSING**.

Dean of Life Sciences and Prof. of Molecular, Cell and Developmental Biology Tracy Johnson focuses on how cells regulate their gene expression.

Prof. Bob Goldberg, molecular, cell and developmental biology, focuses on plant genetics.

SHARPEN YOUR SKILLS

All life sciences and nursing majors learn critical thinking, analytical skills, research strategies and laboratory skills. Depending on your major and course choices, you may develop ease in data mapping or acquire specific clinical skills.

SHAPE YOUR FUTURE

Life sciences majors find jobs in research labs, biotechnology, pharmaceuticals or genetic counseling. Many go on to graduate study in neuroscience, medicine, dentistry and other health-related professions.

Students gain medical experience volunteering in Mexico.

IMPACT YOUR WORLD

BRAIN RESEARCH. More than 50 years ago, UCLA became a leader in the then-new field of brain research. That's one reason we identify psychology as a life science, not a social science: Our approach is grounded in neurobiology. UCLA's graduate program in clinical psychology is ranked first in the U.S.

ECOLOGY. There's an extensive botanical garden right on campus, an urban refuge for biodiversity. Further afield is the University of California's Stunt Ranch Santa Monica Mountains Reserve, used for research and internships. Ongoing studies focus on how flora and fauna have recovered from a 1993 fire.

HOSPITAL. UCLA's health science schools are on the main campus — and so is Ronald Reagan UCLA Medical Center, ranked the No. 1 best hospital in California and No. 10 in the world. That's where our nursing students do their clinical immersion. Even more students are involved at the hospital as volunteers and researchers, especially in the biomedical research minor. And our medical school faculty teaches courses in the undergraduate neuroscience program.

Ronald Reagan UCLA Medical Center is ranked No. 10 in the world.

Nursing students in the simulation lab

Student organic garden

A sampling of majors
(see pages 14–15 for a complete list):

- Biology
- Nursing
- Psychobiology
- Psychology
- Physiological Science

Majors of growing interest:

- Cognitive Science
- Human Biology and Society
- Molecular, Cell and Developmental Biology
- Neuroscience

Some intriguing minors in this area
(see page 15 for a complete list):

- Applied Developmental Psychology
- Biomedical Research
- Conservation Biology
- Evolutionary Medicine

Prof. Amy Rowat, integrative biology and physiology, teaches a course called Science and Food.

INTRIGUED BY PEOPLE AND THE INSTITUTIONS THEY CREATE

Perhaps you have a flair for business or politics. Or maybe you like understanding how institutions work — and why they don't. You may find your focus in the **SOCIAL SCIENCES** or **PUBLIC AFFAIRS**.

Darnell Hunt, executive vice chancellor and provost, and professor of sociology and African American studies, co-authors a much-quoted study on Hollywood diversity.

Prof. of American Politics and Communication Lynn Vavreck studies presidential elections.

SHARPEN YOUR SKILLS

Social science majors learn research and writing skills, creative thinking and problem-solving. Some areas — notably economics — stress quantitative skills as well.

SHAPE YOUR FUTURE

Social science majors bring their skills to business, consulting and government. Some students pursue professional degrees in law, public policy or management.

Study pods in the Charles E. Young Research Library

IMPACT YOUR WORLD

INTERNATIONAL INSTITUTE. Founded in 1958, the International Institute is the central hub for global and area studies at UCLA, with more than 25 centers and programs promoting multidisciplinary research. Both a major and minor in global studies are offered.

QUARTER IN WASHINGTON. The University of California D.C. Center houses more than 250 students in a high-rise a short walk from the White House. UCLA students can do the Quarter in Washington program in fall, winter or spring — completing an internship and an original research project.

FIELD STUDY. Los Angeles offers many opportunities for research. But our students pursue field study all over the world: geography students in Thailand, anthropology students in Ghana and Bali, political science students in Sacramento. The Lemelson Anthropological Honors Program is only one of the field study programs in Social Sciences.

PROFESSIONAL SCHOOLS. The Luskin School offers a public affairs major as well as a minor in urban and regional studies. The Law School welcomes undergraduate volunteers to its moot court program. The Anderson School has a minor in accounting and courses for the entrepreneurship minor.

Erica Henderson (international development) and Melanie Mah (psychology) participate in Quarter in Washington.

Prof. of Urban Planning, Social Welfare and Geography Ananya Roy researches poverty and inequality.

Logan Linnane (geography and political science) does fieldwork in Thailand.

Prof. Tim Groeling, communication studies, focuses on political communication and new media.

A sampling of majors
(see pages 14–15 for a complete list):

Business Economics
Education and Social Transformation
History
Political Science
Public Affairs
Sociology

Majors of growing interest:

African American Studies
American Indian Studies
Chicana and Chicano Studies
Communication Studies
Gender Studies
Labor Studies

Some intriguing minors in this area
(see page 15 for a complete list):

Entrepreneurship
Public Health

LOVER OF THE ARTS, LITERATURE AND CULTURE

Perhaps your passion is theater or painting. Or maybe you are thrilled by literature or language as a reader or a writer. You may find your major in **MUSIC**, the **ARTS** or the **HUMANITIES**.

Design | Media Arts students explore "form" in a studio class.

Prof. Rebeca Méndez teaches design.

Grammy Award winner and Ethnomusicology Lecturer Jesús Guzmán teaches Music of Mexico.

SHARPEN YOUR SKILLS

At UCLA, performing and visual arts majors get a liberal arts background as well as specialized skills. Humanities majors hone their writing and research skills in English and in other languages. Digital humanities adds new dimensions: for example, mapping the cultural, architectural and urban history of a city space.

SHAPE YOUR FUTURE

Humanities majors embrace a wide range of careers, from business and academia to digital media content creation. Music major Sophia James wowed audiences on *American Idol*'s 18th season. She's one of a long line of singers, actors and artists with degrees from UCLA.

IMPACT YOUR WORLD

MUSEUMS. With a focus on emerging artists, an extensive permanent collection and endless public programs, the Hammer Museum is a rich resource for art and humanities students. The Fowler Museum explores global arts and cultures — past and present — and offers paid student internships and courses like Textiles of the World.

PERFORMANCE. Students of the arts and humanities enjoy the Center for the Art of Performance (CAP UCLA), which hosts dance, music, spoken word, theater and experiential programming by leading artists from around the globe. The Geffen Playhouse, known for its mix of classic and contemporary plays, new works and musicals, partners with UCLA as an educational resource to offer students countless internships, workshops, student tickets and college nights.

FILM AND TELEVISION ARCHIVE. In the U.S., UCLA's archive is second in size only to the Library of Congress. But it's not just for film buffs. It's a rich cultural history resource that includes the Hearst Metrotone News collection, with 27 million feet of newsreel footage from 1914 through 1968. Undergraduates can view holdings for research papers or capstone projects.

The design/production sequence in Theater includes costume design.

Professor and writer-director Dominic Taylor is a scholar of African American theater.

Shaping your UCLA experience

These brief profiles show the many paths alumni follow to successful careers. Choosing a major is just one step. Explore your interests using all of the available resources at UCLA: undergraduate research, internships, student groups, study abroad and student jobs.

ROSIE O'NEILL B.A. '00, M.B.A. '05

MAJORED in communication studies, UCLA College

NOW co-founder and general partner of Pure Imagination Brands, an investment fund supporting disruptive brands and the entrepreneurs who power them

BEFORE UCLA, grew up in Costa Mesa, California, where she enjoyed drawing, painting, crafts and sewing

AT UCLA, took communication classes that taught her what makes people tick and how they think

AFTER GRADUATION, spent seven years as director of marketing at Mattel, where she led a global unit that sold over 50 million Barbies annually, before co-founding luxury candy brand Sugarfina, where she served as co-CEO for nearly eight years

EZRA KLEIN B.A. '05

MAJORED in political science, UCLA College

NOW hosts *The Ezra Klein Show*, a biweekly podcast. He's also a political analyst, author, journalist with *The New York Times* and co-founder of Vox.

BEFORE UCLA, grew up in Irvine, California. His dad, a first-generation immigrant from Brazil, is a math professor and his mom, an artist.

AT UCLA, took classes from poli-sci professors, including Lynn Vavreck, the Marvin Hoffenberg Chair in American Politics and Public Policy, and interned for *Washington Monthly* in Washington, D.C.

AFTER GRADUATION, became a blogger for *The American Prospect*, then at *The Washington Post*, where he was also a writer. Left to launch Vox. In 2020, joined *The New York Times*, where he became an opinion columnist.

GINA PRINCE-BYTHEWOOD B.A. '91

MAJORED in film and television, School of Theater, Film and Television

NOW a screenwriter and director, most recently of *The Woman King* starring Viola Davis; on *Time* magazine's list of the 100 most influential people of 2023

BEFORE UCLA, saw movies on weekends with her parents, played basketball and ran track in Pacific Grove, California, where she grew up

AT UCLA, planned to become a soap opera writer, but was overcome with the feeling that she was meant to direct when she was carrying equipment for a student film

AFTER GRADUATION, wrote for TV series including *A Different World* and *Felicity* before writing and directing her first film, *Love & Basketball*, which earned a Humanitas Prize. Strives to tell stories that reflect the experiences of women of color and challenge stereotypes.

LISA D. CAGNOLATTI B.S. '83

MAJORED in chemical engineering, UCLA Samueli School of Engineering

NOW Retired Chief Customer Officer, Southern California Edison; Non-Profit Board President, philanthropist

BEFORE UCLA, a star student in math and chemistry at Inglewood High School. Discovered engineering through a UCLA program.

AT UCLA, a member of the National Society of Blacks in Engineering and Alpha Kappa Alpha sorority; lived and worked at Sproul Hall; interned with IBM and Proctor and Gamble

AFTER GRADUATION, earned an MBA from Pepperdine University. Started as a team manager at Proctor and Gamble, moved to Southern California Gas Company as an energy sales engineer. Worked her way up the corporate ladder.

Photo by: Daily Bruin

BRYANT NG B.S. '00

MAJORED in molecular, cell and developmental biology, UCLA College

NOW head chef and co-owner of award-winning restaurant Cassia in Santa Monica, California; co-founder of L.A. Chefs for Human Rights (LACHR)

BEFORE UCLA, grew up peeling shrimp and washing dishes at his parents' and grandparents' restaurants in Los Angeles

AT UCLA, loved his major classes and planned to go into medicine. Eventually discovered his true passion, cooking. Now he applies principles he learned in lab class to creating recipes.

AFTER GRADUATION, worked as a biotech and pharmaceutical consultant before continuing his education at Le Cordon Bleu in Paris. Named 2022 James Beard finalist for "Best Chef — California."

ANDREW CAMPION B.A. '93, M.B.A. '03

MAJORED in economics, UCLA College

NOW Chairman, Unrivald Sports; Operating Partner, TCG; Director, UCLA Sports Leadership Management Program and UCLA Sports Initiatives; and on the board of directors for Starbucks and the LA28 Olympic and Paralympic Games

BEFORE UCLA, grew up in Whittier, California, and graduated from Whittier Christian High School

AT UCLA, became a member of Pi Kappa Alpha fraternity, played intramural volleyball and basketball, and went to nearly every football and basketball game

AFTER GRADUATION, earned a law degree and LLM in taxation. Held leadership roles at The Walt Disney Company while earning his M.B.A. at UCLA Anderson. Spent 17+ years at Nike Inc., where he served as chief operating officer, chief financial officer and head of global strategy.

CARMEN ARGOTE B.A. '04

MAJORED in art, School of the Arts and Architecture

NOW an artist whose work has appeared in group and solo shows in venues including the L.A. Convention Center, the Hammer Museum and New York City's New Museum

BEFORE UCLA, grew up in the Pico-Union neighborhood of L.A. with her parents and sister

AT UCLA, entered as a transfer from Santa Monica College. Undergraduate work chosen for an exhibition in the Wight Gallery; also did a solo show.

AFTER GRADUATION, earned her M.F.A. from UCLA in 2007

Majors and Minors

UNDECIDED? YOU’RE IN GOOD COMPANY. About 1,500 students are “undeclared” at any given time, and many more change majors. See what sparks your interest from this list of our current offerings.

1 Applicants are admitted to pre-major status until prerequisites are satisfactorily completed.

2 Transfer applicants should note that demand for this major significantly exceeds space available at the transfer level.

3 Transfer students who are admitted to a major outside the Department of Economics are not permitted to transfer into one of the economics majors.

4 Not open to entering students

5 Open to junior-level applicants only (60 semester/90 quarter units completed by transfer)

6 Only freshman-level applicants may apply as undeclared.

7 This major is listed under the College of Letters and Science in the UC Application. Applicants are admitted to pre-major status until prerequisites are completed.

NOTE:
Undeclared freshman applicants are welcome in Engineering and all divisions of the College of Letters and Science. The schools that do not consider undeclared applicants are Arts and Architecture; Music; Public Affairs; Theater, Film and Television; and Nursing.
If you’re a transfer student, you must declare a major when you apply, but you may be able to add a minor later. Be sure to consult our Transfer Admission Guide for detailed information.
List of majors and minors accurate at the time of printing. Please visit admission.ucla.edu/majors for the most up-to-date listings.

WHEN CHOOSING A MAJOR, YOU
MAY **FIND** THAT YOU'RE NOT
SURE WHERE TO BEGIN. MAYBE
YOUR FAMILY HAS **THE** ANSWER,
OR YOUR FRIENDS OR TEACHERS.
OR MAYBE YOUR **PATH** SHOULD
BE BASED ON YOUR INTERESTS
AND SKILLS. PERHAPS NONE OF
THAT'S AS RELEVANT AS YOUR
PERSONALITY. REST ASSURED,
ANY OR ALL OF THOSE COULD
LEAD YOU TO THE **RIGHT** ANSWER
AS LONG AS YOU ALSO LISTEN
TO YOUR HEART, **FOR** THAT IS
YOUR MOST TRUSTED ADVISOR.
AND WHEN YOUR HEART JOINS
FORCES WITH OUR HEART,
YOU ARE SURE TO BECOME
A FORCE OF NATURE AT **UCLA**
