UCLA has a long tradition of academic and research excellence, so it’s no surprise that academics are an important part of our transfer admission and selection criteria. We encourage you to meet with your counselor for individual advising and to review our Transfer Admission Guide for specific requirements. At a minimum, you must satisfy the following four requirements:

1. Complete 60 semester or 90 quarter units of UC-transferable college credit (junior-level standing)
2. Complete the UC 7-course pattern (2 English composition, 1 math, 4 electives). Students are encouraged to take required English and math courses as early as possible. One transferable math course that has a prerequisite of intermediate algebra or higher will also be evaluated.
3. Complete a significant amount of lower-division major preparation for your intended major
4. Maintain a GPA of at least 3.2 in all transferable courses. Note that applicants for highly selective majors should present a strong GPA

For California Community College Students, ASSIST (www.assist.org) provides detailed information on transferable courses, major prep requirements, and course articulation.
